COLLEGES OF EDUCATION
END OF SEMESTER TWO EXAMINATIONS FOR LEVEL 200, 2024/2025
B.ED. PROGRAMME

COURSE CODE: TEJS 265
COURSE TITLE: MANIPULATIVE PROCESSES AND SKILLS IN HOME ECONOMICS

Instruction: Answer **all** questions in Section A and any **three** questions in Section B.

Time: 2 hours

SECTION A

[25 Marks]

Answer all the questions in this section.

1. Which of the following is a specialized kitchen tool specifically designed for measuring internal temperatures of meats and ensuring food safety standards are met?
   a. Digital scale meter
   b. Instant-read thermometer
   c. Probe timer hydrometer
   d. Temperature gauge

2. In a commercial kitchen setting, what is the primary advantage of using a stand mixer with multiple attachments over a hand mixer?
   a. Better storage capability
   b. Higher energy efficiency
   c. Lower maintenance costs
   d. Multiple simultaneous functions

STUDENT'S ID NO:_____ SIGNATURE: _____

3. Which safety feature is most essential for a commercial meat slicer in a busy deli operation?
   a. Blade guard mechanism
   b. Color coding system
   c. Power indicator light
   d. Speed settings option
4. Which of the following is the most important consideration when selecting storage containers for a commercial kitchen?
   a. Aesthetic easy appeal
   b. Cost efficiency value
   c. Food safety compliance
   d. Size and shape variety
5. Which of the following is a tool specifically designed for marking fabric with temporary lines and transferring pattern markings?
   a. Fabric marker
   b. Marking pencil
   c. Tailor's chalk
   d. Tracing wheel
6. Which of the following is the primary function of a bodkin in sewing?
   a. Creating buttonholes and zip pathways
   b. Drawing straight lines across sewing patterns
   c. Threading elastic or ribbons through casings
   d. Trimming seam allowances and hemming
7. When selecting cleaning equipment for a large accommodation facility, which factor should be given the highest priority?
   a. Aesthetic appeal of the equipment
   b. Cost of the equipment only
   c. Manufacturer's reputation only
   d. Performance efficiency and durability
8. Which of the following is a practice that is most essential for ensuring the longevity of electronic appliances in guest rooms?
   a. Annual replacement regardless of condition or length of usage
   b. Following manufacturer's maintenance guidelines and usage instructions
   c. Minimal maintenance to reduce costs and not cleaning around them
   d. Using equipment until complete failure and ignore safety instructions
9. When preparing a French meringue, which whisking technique is most crucial for achieving optimal volume and stability?
   a. Circular motion at medium speed
   b. Figure-eight pattern at high speed
   c. Rapid side-to-side movement
   d. Slow folding motion

STUDENT'S ID NO:_____ SIGNATURE: _____

10. Which of the following is a garnishing technique that is most appropriate for creating a professional presentation on a soup?
    a. Chopped herbs scattered randomly
    b. Large decorative elements on the rim
    c. Quenelle of cream in the center
    d. Whole herb leaves floating on top
11. Which of the following is a weaving technique that creates a diagonal pattern in the fabric?
    a. Plain weave
    b. Satin weave
    c. Twill weave
    d. Waffle weave
12. Which of the following is the most important characteristic when selecting commercial-grade cookware for a busy restaurant kitchen?
    a. Brand recognition sticker
    b. Heat distribution properties
    c. Price point average
    d. Visual appearance tinge
13. Which type of pin is recommended for delicate fabrics to prevent marking or snagging?
    a. Ball-point pins
    b. Glass head pins
    c. Safety pins
    d. Straight pins
14. What tool is used to create precise parallel lines when marking darts or pleats?
    a. Expandable measuring tape
    b. Fabric measuring marker
    c. Seam gauge measure
    d. Tracing wheel and paper
15. Which of the following best describes the primary purpose of a preventive maintenance schedule in a lodging facility?
    a. Addressing issues only when they become problematic
    b. Conducting repairs on a quarterly basis but only when necessary
    c. Performing regular inspections and upkeep to prevent breakdowns
    d. Replacing equipment when it completely fails

16. In managing hotel room resources, what is the most efficient approach to inventory control?
    a. Annual counting of identified items by guests and staff
    b. Maintaining a perpetual inventory system with regular updates
    c. Randomly checking inventory when time permits
    d. Weekly manual counting of high-value items described in ledgers

STUDENT'S ID NO:_____ SIGNATURE: _____

17. Which of the following is a manipulative technique essential for developing gluten in bread dough and ensuring proper texture in the final product?
    a. Garnishing
    b. Kneading
    c. Sautéing
    d. Whisking
18. In professional food preparation, what is the primary purpose of the brunoise cutting technique?
    a. Creating decorative garnishes
    b. Making large, uniform chunks
    c. Producing very fine, precise cubes
    d. Slicing vegetables into strips
19. Which of the following is a tool specifically designed for removing unwanted stitches without damaging the fabric?
    a. Edge scissors
    b. Pinking shears
    c. Seam ripper
    d. Thread snips
20. Which of the following is a decorative technique that involves applying small pieces of fabric to create a design on a larger piece of fabric?
    a. Appliqué
    b. Embroidery
    c. Quilting
    d. Smocking
21. In textile dyeing, which process involves creating patterns by preventing dye from reaching certain areas of the fabric?
    a. Batik
    b. Marbling
    c. Screen printing
    d. Tie-dyeing

22. Which of the following is the main purpose of using a mandoline slicer in professional food preparation?
    a. Crushing ingredients
    b. Precise and uniform cuts
    c. Tenderizing meats
    d. Weighing portions

STUDENT'S ID NO: _____ SIGNATURE: _____

23. Which of the following is a specialized scissors that are used to create a zigzag edge that helps prevent fabric from fraying?
    a. Edge scissors
    b. Pattern scissors
    c. Pinking shears
    d. Thread snips
24. What is the primary function of a salamander in a professional kitchen?
    a. Broiling and finishing dishes
    b. Maintaining food temperature
    c. Steaming vegetables
    d. Storage of ingredients
25. Which basic hand sewing technique is essential for temporarily holding fabric pieces together before permanent stitching?
    a. Basting stitch
    b. Chain stitch
    c. Overcast stitch
    d. Zigzag stitch

SECTION B

[75 Marks]

Answer any three questions in this section.

Q1	a.	You have been hired to buy kitchen equipment for a commercial kitchen. Compare and contrast the advantages and disadvantages of gas versus electric cooking range/oven for your client and recommend one option.	15
	b.	Compare and contrast the challenges of managing resources in a small boutique hotel versus a large chain hotel.	10
Q2	a.	Develop a comprehensive maintenance and sanitation program for commercial kitchen equipment in a high-volume restaurant.	15
	b.	Discuss the importance of knife skills in professional food preparation, focusing on at least three specific cutting techniques. Explain how these techniques impact both the cooking process and final presentation of dishes.	10
Q3.	a.	Compare and contrast the traditional and modern approaches to weaving and crocheting in textile production. How have these skills evolved with technology while maintaining their fundamental principles?	15
	b.	Explain the scientific principles behind dough manipulation techniques such as kneading and folding. How do these techniques affect the final product's texture, structure, and overall quality?	10
Q4.	a.	Compare and contrast the use of traditional pressing equipment (iron and ironing board) with modern pressing tools (such as steam press and pressing ham). Analyze how the choice of pressing equipment impacts garment construction workflow, final product quality, and production efficiency in both small-scale and industrial settings. Support your answer with specific examples of different fabric types and garment construction scenarios.	15
	b.	Analyze the role of garnishing in modern culinary presentation. Discuss various advanced garnishing techniques and their appropriate applications, considering both aesthetic and practical aspects.	10
Q5.	a.	Discuss the importance of implementing an effective resource management system in a large-scale lodging facility. Include specific examples of how proper resource management impacts operational efficiency, cost control, and guest satisfaction.	10

b. Describe the fundamental manipulative skills required in garment construction, from pattern drafting to final assembly. Explain how these skills contribute to the quality of the finished product and discuss their practical applications in both domestic and commercial settings. 15
