SCHOOL OF EDUCATION AND LEADERSHIP
COLLEGES OF EDUCATION

END OF SECOND SEMESTER EXAMINATION FOR LEVEL 200, 2024/2025
B.ED PROGRAMME

COURSE CODE: TEJS 202
COURSE TITLE: PSYCHOLOGICAL BASIS FOR DIFFERENTIATED ASSESSMENT

Instruction: Answer **all** questions in Section A and any **three** questions in Section B.

Time: 2 hours

SECTION A

[25 marks]

Answer All The Questions In This Section.

1. The motor skills of infants used in reaching, grasping, manipulating, clapping, threading, flipping, twisting, or scribbling are called .....
   A. Fine-motor skills
   B. Gross-motor skills
   C. Maxi-motor skills
   D. Mini-motor skills

2. Which of the following is **not** an environmental factor that promotes language development?
   A. Number of siblings
   B. Sophistication of home environment
   C. The length of family lineage
   D. The personality of the child

3. Who explained language acquisition through mechanisms of operant conditioning?
   A. Albert Bandura
   B. B.F. Skinner
   C. Ivan Pavlov
   D. Noam Chomsky

4. Who asserted that humans are born with an instinctive facility for acquiring language?
   A. Albert Bandura
   B. B.F. Skinner
   C. Ivan Pavlov
   D. Noam Chomsky

5. Which of the following is **not** a key issue in the definition of learning?
   A. Learning is both a process and a product
   B. Learning is a change in behaviour
   C. Learning occurs through practice and experience
   D. Learning should always result in excellent academic performance

6. The learning factor that implies it is impossible for a child to perform tasks for which they are not physically or mentally developed enough is .....
   A. Gender
   B. Maturation
   C. Motivation
   D. Readiness

7. Who propounded the theory of classical conditioning?
   A. Albert Bandura
   B. B.F. Skinner
   C. Ivan Pavlov
   D. Noam Chomsky

8. In classical conditioning, withholding the unconditioned stimulus reduces the probability of a conditioned response. This stage is .....
   A. Acquisition
   B. Extinction
   C. Spontaneous recovery
   D. Stimulus generalization

9. When a conditioned response occurs to a stimulus similar to the original conditioned stimulus, this is called .....
   A. Acquisition
   B. Extinction
   C. Spontaneous recovery
   D. Stimulus generalization

10. An unpleasant stimulus presented to suppress undesirable behaviour is .....
    A. Conditioning
    B. Punishment
    C. Reinforcement
    D. Reward

11. A table showing the number of test items needed for each topic is called .....
    A. Table of assessment
    B. Table for item analysis
    C. Operational matrix
    D. Table of specifications

12. A lesson objective requiring pupils to summarize a passage in their own words is at the level of .....
    A. Analysis
    B. Application
    C. Comprehension
    D. Knowledge

13. Testing in which attainment is measured against specific standards of mastery is .....
    A. Criterion-referencing
    B. Norm-referencing
    C. Post-testing
    D. Pre-testing

14. Which principle guides differentiated assessment?
    A. One-size-fits-all approach
    B. Maintaining learner expectations and goals
    C. Ignoring individual learner characteristics
    D. Using the same method for all learners

15. Differentiated assessment involves adapting assessments based on .....
    A. Teacher's preferences
    B. Standardized tools
    C. Learners' characteristics and needs
    D. Availability of resources

16. Which level of measurement has a meaningful true zero point?
    A. Nominal
    B. Ordinal
    C. Interval
    D. Ratio

17. What is the main difference between assessment and evaluation?
    A. Assessment involves grading, evaluation doesn't
    B. Assessment focuses on learning progress, evaluation judges effectiveness
    C. Assessment is objective, evaluation is subjective
    D. Assessment is for teachers, evaluation is for learners

18. The purpose of **Assessment as Learning (AaL)** is .....
    A. Assigning grades
    B. Providing feedback on summative assessment
    C. Helping learners take responsibility for their own learning
    D. Selecting learners for support

19. **Assessment for Learning (AfL)** primarily focuses on .....
    A. Grading learners' performance
    B. Assigning scores to formative assessments
    C. Modifying teaching and learning based on feedback
    D. Conducting standardized tests

20. Which type of assessment measures learner progress and emphasizes feedback rather than grades?
    A. Summative assessment
    B. Formative assessment
    C. Diagnostic assessment
    D. Evaluative assessment

21. Which part of a multiple-choice item presents the problem to be solved?
    A. Foil
    B. Key
    C. Options
    D. Stem

22. The following must be considered in selecting a test format **except** .....
    A. Age of respondents
    B. Availability of test blueprint
    C. Physical facilities
    D. Skills to be tested

23. Which of the following is **not** a suggestion for scoring essay tests?
    A. Decide scoring method and prepare a guide
    B. Grade responses item by item

C. Grade responses script by script
D. Score responses anonymously

24. A test that produces consistent results is said to be .....
A. Precise
B. Consistent
C. Reliable
D. Valid

25. Norm-referenced interpretation can be used for all decisions **except** .....
A. Comparison
B. Ranking
C. Selection
D. Quality rating

SECTION B
[75 Marks]
ANSWER THREE QUESTIONS IN THIS SECTION
Answer any **THREE** questions in this section

1.a. Explain the term Diagnostic Assessment. **(5 Marks)**

b. Explain clearly any 5 decisions that teachers make when they assess students. **(20 Marks)**

2. a. Explain clearly what classical conditioning is? **(5 Marks)**

b. Explain the following terms with relevant examples

i. Unconditioned stimulus
ii. Unconditioned response
iii. Conditioned stimulus
iv. Conditioned response

(16 Marks)

2. c. Explain clearly what is meant by physiological factors **(4 Marks)**

3. a. What is Educational Psychology? **(4 Marks)**

b. Explain any four importance of Educational Psychology to the classroom teacher. **(16 Marks)**

c. State and explain briefly any three genetic threats to pre-natal development. **(6 Marks)**

4. a. Identify and explain briefly any four schedules of reinforcement? **(16 Marks)**

b. Explain briefly any three of Thorndike's Laws of Learning with relevant examples **(9 Marks)**

5.a. Explain the following terms with relevant examples

i. Portfolio assessment
ii. Performance assessment
iii. Task analysis

(6 Marks)

b. Explain any four factors that affect validity of test results? **(16 Marks)**

c. Test items are usually evaluated by various criteria. Identify any three of such criteria.

(3 Marks)
