END OF SEMESTER ONE EXAMINATIONS FOR LEVEL 300, 2023/2024
B.ED. PROGRAMME

COURSE CODE: TEJS 335
COURSE TITLE: REGIONAL GEOGRAPHY OF AFRICA

Instruction: Answer **all** questions in Section A and any **three** questions in Section B.

Time: 2 hours

SECTION A
[25 Marks. 1 Mark for each question]
Answer all the questions in this section.

1. Burkina Faso is known to be located in which part of West Africa?
   A. Central
   B. Eastern
   C. Northern
   D. Western
2. Montane Climate is a type of vegetation found in Eastern Africa. Such vegetation can be located on high lands such as the Ethiopian highlands, Mount Kilimanjaro and …….
   A. Fouta Djallon
   B. Nile basin
   C. Volta valleys
   D. Zembezi valleys
3. The Greenwich Meridian, that is, longitude 0 degree passes through Algeria, Burkina Faso, Ghana and ……
   A. Guinea
   B. Mali
   C. Mauritania
   D. Niger

STUDENT'S ID NO:_____ SIGNATURE: _____

4. The following are factors that influence vegetation in Africa but which one of them is a sub factor?
   A. climate
   B. rainfall
   C. soil
   D. topography
5. The following are mountains in Africa, EXCEPT ---------
   A. Atlas Mountain
   B. Mount Afadjato
   C. Mount Cameroon
   D. Mount Everest

   A. competent
   B. intermittent
   C. interment
   D. moving
7. All the natural, human and cultural elements that help us to sustain ourselves in this world are our .....
   A. lands
   B. material
   C. resources
   D. systems
8. Which of the following best describes the relative location of Ghana?
   A. Burkina Faso at the east, Ivory Coast at the west, Togo at the south east
   B. Burkina Faso at the north, Ivory Coast at east, Togo at the south west
   C. Ivory Coast at the west, Togo at the east and Burkina Faso at the north
   D. Togo at the west, Burkina Faso at the north and Ivory Coast at the east
9. The following are countries that can be located in Southern Africa, EXCEPT .....
   A. Botswana
   B. Djibouti
   C. Lesotho
   D. Mozambique
10. Which of the following is number one on the list of sustainable development goals?
   A. Good health and poverty
   B. No poverty
   C. Quality health and well-being
   D. Zero hunger
11. How many mainland countries can a geographer identify in West Africa?
   A. 16
   B. 17
   C. 21
   D. 22

STUDENT'S ID NO:_____ SIGNATURE: _____

12. Which of the following countries has the smallest land area in Africa?
    A. Angola
    B. Eritrea
    C. Somalia
    D. Zimbabwe
13. Which Ocean bounds Africa to the west?
    A. Atlantic Ocean
    B. Indian Ocean
    C. Pacific Ocean
    D. Southern Ocean
14. What are the five distinct subregions of Africa based on the United Nations Geochem for Africa?
    A. North Africa, West Africa, Central Africa, South Africa, East Africa
    B. North Africa, West Africa, Central Africa, Southern Africa, East Coast Africa
    C. North Africa, West Africa, Central Africa, Southern Africa, North-East Africa
    D. North Africa, West Africa, Central, Southern Africa, East Africa
15. Justify the reason why the areas around the equator in the tropics are hotter than places around the temperate and polar zones?
    A. The incidence of the sun is over a smaller area and travels through a shorter distance
    B. The curvature of the earth
    C. The sun rays travel through a longer distance
16. The western sides of the African continent are washed by cold Canary and Benguella currents resulting in the formation of
    A. Heavy rains
    B. Deserts
    C. High temperatures
    D. Growth of vegetation
17. What is the most prevalent climate type in the Sahara region of Africa?
    A. Arid
    B. Mediterranean
    C. Tropical wet
    D. Tropical wet and dry
18. Which of the following is the main obstacle impeding the use of the African rivers for transportation?
    A. The presence of large rivers.
    B. The presence of rapids and waterfalls.
    C. The high potential for electricity production.
    D. The presence of many rivers.
19. Which human activity has contributed significantly to deforestation in the Congo Basin?
    A. Agriculture
    B. Logging
    C. Mining
    D. Urbanization

20. The dominant vegetation type in the African savanna is:
    A. Coniferous forest
    B. Deciduous forest
    C. Desert scrub
    D. Grassland
21. Which of the following is an example of a non-renewable resource?
    A. Coal
    B. Forests
    C. Sunlight
    D. Wind
22. How did the Brundtland Report in 1987 define sustainable development as?
    A. Development that disregards environmental protection
    B. Development that focuses solely on economic growth
    C. Development that meets the needs of future generations only
    D. Development that meets both present and future generations need
23. Which one of the following manufacturing industries needs to locate close to the market?
    A. Bakery
    B. Cement
    C. Textile
    D. Footwear
24. 'Large amount of labour and capital are required. Large tracts of land are used to obtain high yields per unit area'. The system of agriculture described above is
    A. mixed farming
    B. peasant farming
    C. market farming
    D. plantation farming
25. The North-East Trade Winds or Tropical Continental Air Mass which affects West Africa brings all the following except
    A. hazy
    B. dusty
    C. dry
    D. rain

SECTION B

[75 Marks, 25 Marks each]

Answer any three questions in this section

1. a) List three (3) important mountains in Africa. [2 marks]
   b) List two (2) mountains in Ghana. [5 marks]
   c) Discuss **four (4)** socio-economic and environmental importance of mountains in Africa. [12 marks]

2. (a) Describe five key attributes that characterize rivers within the African continent. (10mks)
   (b) Explore the significance of African rivers by discussing five key roles they play. (15mks)

3. (a) Describe the tropical continental or savannah climate under the following:
   i. Location and Geographical Distribution (4mks)
   ii. Temperature (4mks)
   iii. Rainfall (4mks)
   iv. Wildlife (4mks)

   (b) State three ways trees adapt to the tropical continental climate. (9mks)

4. a) Define the term climate [4 marks]

   b) Describe how the following factors influence the climate of Africa:

   i. Latitude [3 marks]
   ii. Ocean currents [3 marks]
   iii. Altitude [3 marks]
   iv. Distance from the sea [3 marks]
   v. Topography/slope [3 marks]

   c) Describe three (3) characteristics of the equatorial climate. [6 marks]

5. (a) Name three methods of mining gold in Africa. (3mks)

   (b) Describe the process of extracting gold through underground mining in Africa. (10mks)

   (c) In what four ways does gold mining contribute to the economy of Africa? (12mks)
