STUDENT'S ID NO:_____ SIGNATURE: _____

UNIVERSITY OF GHANA

(All rights reserved)

DEPARTMENT OF TEACHER EDUCATION

SCHOOL OF EDUCATION AND LEADERSHIP

COLLEGES OF EDUCATION

END OF SEMESTER TWO EXAMINATIONS FOR LEVEL 200, 2023/2024

B.ED. PROGRAMME

COURSE CODE: TEEG 204

COURSE TITLE: CHILD GROWTH AND DEVELOPMENT

Instruction: Answer **all** questions in Section A and any **three** questions in Section B.

Time: 2 hours

SECTION A

[25 Marks]

Answer all the questions in this section.

1. The following are developmental principles EXCEPT:
   a. Development is multidimensional
   b. Development is multidirectional
   c. Development is lifelong
   d. Development is general
2. The brain of a baby develops faster based on….
   i. Repetitive activities
   ii. Developmentally appropriate learning experiences
   iii. Positive relationship with adults in the environment
   iv. Exposure to stimulating learning environment
   a. i and ii
   b. i, ii and iii
   c. all the above
   d. none of the above

3. A teacher was cautioned never to hit the back of a child's head in order not to cause harm to the part of the brain which is located at the base of the brain and connects to the spinal cord. Which part of the brain is this?
   a. Cerebellum
   b. Cerebrum
   c. Brain stem
   d. Frontal lobe
4. Early grade learners learn concepts in many folds. This includes:
   i. By accretion
   ii. By acquisition
   iii. By transmission
   iv. By conversations
   a. i, ii and iv
   b. i, ii and iii
   c. i and iv
   d. ii only
5. A KG2 teacher always scaffolds concepts to a learner in the learning process and he ensures to repeat the activities more than twice; which principle of learning applies to what he is doing?
   a. Learning takes time
   b. Effort produces result
   c. We learn with and through others
   d. Motivation matters
6. The learning theory which emphasizes on preparing the environment well for learners to interact with the resources and construct his or her own understanding of concepts is…
   a. Behaviourism
   b. Constructivism
   c. Cognitivism
   d. Socio-cultural learning
7. The behaviourist theorist who propounded the law of effect, law of readiness and law of exercise is known as:
   a. El Thorndike
   b. Ivan Pavlov
   c. B. F. Skinner
   d. Jean Piaget
8. Conception begins when fertilization takes place and the fertilized egg successfully moves to attach itself to the walls of the uterus; how long does this process take?
   a. 7 days
   b. 12 days
   c. 14 days
   d. 21 days

   ii. By acquisition
   iii. By transmission
   iv. By conversations
   a. i, ii and iv
   b. i, ii and iii
   c. i and iv
   d. ii only
5. A KG2 teacher always scaffolds concepts to a learner in the learning process and he ensures to repeat the activities more than twice; which principle of learning applies to what he is doing?
   a. Learning takes time
   b. Effort produces result
   c. We learn with and through others
   d. Motivation matters
6. The learning theory which emphasizes on preparing the environment well for learners to interact with the resources and construct his or her own understanding of concepts is…
   a. Behaviourism
   b. Constructivism
   c. Cognitivism
   d. Socio-cultural learning
7. The behaviourist theorist who propounded the law of effect, law of readiness and law of exercise is known as:
   a. El Thorndike
   b. Ivan Pavlov
   c. B. F. Skinner
   d. Jean Piaget
8. Conception begins when fertilization takes place and the fertilized egg successfully moves to attach itself to the walls of the uterus; how long does this process take?
   a. 7 days
   b. 12 days
   c. 14 days
   d. 21 days

9. Embryonic stage is characterized by the formation of three layers which form the basis of the human system; these layers include:
   a. Mesoderm, endocrym and ectoderm
   b. Endoderm, mesoderm and poctoderm
   c. Ectoderm, mesoderm and indodem
   d. Endoderm, ectoderm and mesoderm
10. The following are teratogens at pre-natal stage if consumed by a first-trimester pregnant woman EXCEPT?
   a. Malta Guinness
   b. Coffee
   c. Drugs and chemicals
   d. Tobacco
11. Characteristics of cognitive development of young learners at age 5 includes:
   i. Ability to use a number of vocabulary in sentences
   ii. Ability to count and skip count numbers
   iii. Ability to argue and ask questions
   iv. Ability to roll a car tyre with speed
   a. i, ii and iii
   b. i, ii and iv
   c. i, ii, iii and iv
   d. i only
12. According to Piaget's cognitive development assumptions, a child's ability to organize new information in the mind is known as:
   a. Accommodation
   b. Assimilation
   c. Schemata
   d. Equilibrium
13. Egocentrism is of the characteristics of one of the stages of Piaget's cognitive development, which is…
   a. Sensory motor
   b. Pre-operational
   c. Concrete operational
   d. Formal operational
14. Pre-conventional, conventional and post-conventional are levels of morality development propounded by:
   a. El Thorndike
   b. Lawrence Kohlberg
   c. John Lock
   d. Lev Vygosky
15. Which stage of moral development views morality as consequences of their actions and also do things to suit their needs?
   a. Post –convention
   b. Convention
   c. Pre-convention
   d. All the stages

STUDENT'S ID NO:_____ SIGNATURE: _____

16. Agents of moral development include:
    i. The family
    ii. Mass media
    iii. Religious groups
    iv. Educational institutions
    a. i, and ii
    b. i, ii and iii
    c. i, ii, and iii
    d. i, ii, iii and iv
17. Roles of teachers in moral development include EXCEPT:
    a. Using appropriate pedagogies in teaching
    b. Setting of norms in the classroom
    c. Modelling good behavior in the classroom
    d. Reinforcing good behavior
18. According to Erickson's psychosocial theory, the stage where the stage feels the urge to initiate and prepare for leadership roles is known as:
    a. Initiative versus guilt
    b. Industry versus inferiority
    c. Identity versus confusion
    d. Intimacy versus isolation
19. Ability to comprehend language is _____
    a. Expressive language
    b. Reception language
    c. Speaking language
    d. Receptive language
20. The language learning theory which believes that children learn language through observation, imitation and interactions in the environment is:
    a. Nativist theory
    b. Social learning theory
    c. Reinforcement theory
    d. Modelling theory
21. The nativist or innate theory believes there is _____ which allows the learner to acquire language.
    a. Reinforcement in the environment
    b. Language acquisition device
    c. Modelling by adult in the environment
    d. Stimuli by adults in the environment
22. The language development stage where learners utter one word to represent a sentence is known as:
    a. Holophrastic
    b. Telegraphic
    c. Pre-linguistic
    d. Rule acquisition

STUDENT'S ID NO:_____ SIGNATURE: _____

23. Factors which affect language development include the following EXCEPT:
    a. The health of the child
    b. The home factor
    c. Maturation and readiness
    d. Birth placement
24. Developmentally appropriate practices are characterized by:
    i. Ensuring that the activities are very challenging
    ii. Tailoring activities to meet learners at their level
    iii. Ensuring the activities suits the age and level of the learners
    iv. Basing practices on knowledge not assumptions
    a. ii, iii and iv
    b. i and iv
    c. i, iii and iv
    e. i, ii, iii and iv
25. The following are essential components of outdoor activities EXCEPT:
    a. Safety
    b. Accessibility
    c. Learning areas
    d. Stony and slippery areas

STUDENT'S ID NO:_____ SIGNATURE: _____

SECTION B

[75 Marks]

Answer any three questions in this section.

1. As an early grade facilitator handling children between the ages of 4-5 years old to acquire language, discuss five (5) strategies to be employed to help children improve language. **(25marks)**

2. As a level 200 early grade student teacher, you visited Adjoafua D/A Basic 1 classroom as part of your STS observation, and realized that the Basic 1 classroom was inappropriate for teaching and learning activities. Suggest **five (5)** developmentally appropriate practices/activities to your mentor on how to promote a welcoming indoor learning environment. **(25marks)**

3. Discuss **five (5)** roles of parents in supporting the growth and development of their children at home. **(25marks)**

4. As a well-trained early grade teacher, state and explain any **five (5)** activities you can use to assist children from a year to 8 years to enable them develop psychosocially. **(25marks)**

5. Explain in clear terms the meaning of the following terminologies as related to key learning principles/classical conditioning **(25marks)**
   - **i.** Extinction
   - **ii.** Spontaneous recovery
   - **iii.** Stimulus generalization
   - **iv.** Stimulus discrimination
   - **v.** Higher order conditioning
