DEPARTMENT OF TEACHER EDUCATION
SCHOOL OF EDUCATION AND LEADERSHIP
COLLEGES OF EDUCATION
END OF SEMESTER ONE EXAMINATIONS FOR LEVEL 200, 2024/2025
B.ED. PROGRAMME

COURSE CODE: TEEG 205 / TEUP 213 / TEJS 203
COURSE TITLE: TEACHING SPEAKING AND LISTENING

Instruction: Answer **all** questions in Section A and any **three** questions in Section B.
Time: 2 hours

SECTION A
[25marks]

Answer all questions in this section by circling the correct option.

1. A teacher implements a speaking activity where students must negotiate complex scenarios using academic vocabulary while incorporating cultural perspectives. This multifaceted approach primarily serves to:
   A. Develop metacognitive awareness through linguistic challenges
   B. Integrate cross-cultural competencies with advanced discourse
   C. Foster sociolinguistic adaptation in formal contexts
   D. Enhance pragmatic comprehension in academic settings

2. When developing technology-enhanced listening materials, a teacher alternates between authentic speeches with varying accents and modified content with controlled vocabulary. This methodology aims to:
   A. Simulate standardized testing conditions
   B. Scaffold comprehension through controlled exposure
   C. Balance authenticity with pedagogical scaffolding
   D. Prioritize accent recognition over content comprehension

3. In aligning the speaking curriculum with formative assessment practices, the most effective approach would be to:
   A. Implement standardized rubrics across all speaking tasks
   B. Design task-specific assessment criteria for each unit
   C. Integrate peer feedback with metacognitive reflection protocols
   D. Focus on quantitative measures of oral proficiency

COURSE TITLE: TEACHING SPEAKING AND LISTENING

Instruction: Answer **all** questions in Section A and any **three** questions in Section B.
Time: 2 hours

SECTION A
[25marks]

Answer all questions in this section by circling the correct option.

1. A teacher implements a speaking activity where students must negotiate complex scenarios using academic vocabulary while incorporating cultural perspectives. This multifaceted approach primarily serves to:
   A. Develop metacognitive awareness through linguistic challenges
   B. Integrate cross-cultural competencies with advanced discourse
   C. Foster sociolinguistic adaptation in formal contexts
   D. Enhance pragmatic comprehension in academic settings

2. When developing technology-enhanced listening materials, a teacher alternates between authentic speeches with varying accents and modified content with controlled vocabulary. This methodology aims to:
   A. Simulate standardized testing conditions
   B. Scaffold comprehension through controlled exposure
   C. Balance authenticity with pedagogical scaffolding
   D. Prioritize accent recognition over content comprehension

3. In aligning the speaking curriculum with formative assessment practices, the most effective approach would be to:
   A. Implement standardized rubrics across all speaking tasks
   B. Design task-specific assessment criteria for each unit
   C. Integrate peer feedback with metacognitive reflection protocols
   D. Focus on quantitative measures of oral proficiency

SIGNATURE: _____

STUDENT'S ID NO: _____

4. The integration of asynchronous digital discussions in the speaking curriculum serves primarily to:
   A. Minimize direct teacher intervention in student discourse
   B. Foster critical analysis of language production
   C. Reduce anxiety in real-time communication
   D. Develop multimodal communication competencies

5. When designing a scheme of work for advanced listening comprehension, the most effective sequencing would:
   A. Progress from controlled to authentic materials systematically
   B. Alternate between bottom-up and top-down processing strategies
   C. Integrate metacognitive strategies with content-based instruction
   D. Focus on discrete listening skills in isolation

6. In developing speaking materials for diverse proficiency levels, the most sustainable approach is to:
   A. Create separate materials for each proficiency level
   B. Design adaptable tasks with multiple entry points
   C. Focus on intermediate-level tasks exclusively
   D. Implement standardized speaking protocols

7. The implementation of project-based learning in the speaking curriculum should prioritize:
   A. Individual performance metrics over collaborative outcomes
   B. Integration of multiple linguistic competencies
   C. Structured linguistic progression through defined stages
   D. Authentic problem-solving through negotiated interaction

8. When incorporating technology for listening assessment, the most valid approach would be to:
   A. Focus on automated scoring systems
   B. Combine multiple modalities of input and response
   C. Prioritize standardized listening tests
   D. Implement continuous monitoring system

9. The most effective way to integrate critical thinking in speaking activities is to:
   A. Include explicit instruction in logical reasoning
   B. Design tasks requiring synthesis of multiple perspectives
   C. Focus on debate and argumentation skills
   D. Emphasize problem-solving scenarios

10. In developing listening materials for academic purposes, priority should be given to:
    A. Explicit instruction in note-taking strategies
    B. Integration of disciplinary discourse patterns
    C. Development of metacognitive monitoring skills
    D. Focus on lecture comprehension techniques

STUDENT'S ID NO: _____ SIGNATURE: _____

11. The most effective approach to teaching prosodic features in speaking would be to:
    A. Provide explicit instruction in stress patterns
    B. Integrate prosody with communicative functions
    C. Focus on individual sound production
    D. Emphasize rhythm and intonation in isolation

12. When designing technology-enhanced speaking activities, the primary consideration should be:
    A. The availability of technical resources
    B. The alignment with pedagogical objectives
    C. The integration of multiple skill domains
    D. The balance of synchronous and asynchronous interaction

13. The most effective way to address individual differences in listening comprehension is to:
    A. Provide differentiated input sources
    B. Implement strategy-based instruction
    C. Design adaptive listening tasks
    D. Focus on individualized assessment

14. In developing speaking assessment criteria, the most crucial factor is:
    A. The reliability of scoring mechanisms
    B. The integration of multiple competencies
    C. The authenticity of assessment tasks
    D. The validity of performance indicators

15. The optimal approach to developing listening strategies would be to:
    A. Focus on predictive listening skills
    B. Integrate metacognitive and cognitive strategies
    C. Emphasize bottom-up processing
    D. Prioritize comprehension checking

16. When implementing peer feedback in speaking activities, the most effective approach is to:
    A. Provide structured feedback protocols
    B. Focus on specific performance aspects
    C. Integrate self-assessment components
    D. Develop evaluative competencies systematically

17. The integration of metacognitive strategies in listening instruction primarily leads to:
    A. Increased student attendance
    B. Enhanced comprehension monitoring
    C. Better classroom management
    D. Reduced lesson planning time

SIGNATURE: _____

STUDENT'S ID NO: _____

18. Students' development of prosodic features in speaking correlates most strongly with:
    A. Grammar accuracy
    B. Vocabulary size
    C. Communicative effectiveness
    D. Writing proficiency

19. Formative assessment of speaking skills yields optimal results through:
    A. Standardized testing
    B. Peer evaluation only
    C. Continuous performance monitoring
    D. End-of-term examinations

20. The cognitive load theory applied to listening instruction suggests:
    A. Maximizing information input
    B. Chunking complex information
    C. Eliminating visual aids
    D. Reducing student interaction

21. Scaffolded speaking activities demonstrate maximum effectiveness when:
    A. Removed immediately
    B. Maintained permanently
    C. Gradually reduced based on progress
    D. Applied uniformly to all students

22. The correlation between listening anxiety and comprehension indicates:
    A. Direct positive relationship
    B. Inverse relationship
    C. No significant relationship
    D. Variable relationship based on content

23. The development of strategic competence in speaking manifests through:
    A. Perfect pronunciation
    B. Communication problem-solving
    C. Grammatical accuracy
    D. Vocabulary memorization

24. Bottom-up processing in listening comprehension primarily relies on:
    A. Background knowledge
    B. Contextual clues
    C. Phonological decoding
    D. Cultural understanding

25. The impact of affective filter on speaking performance indicates:
    A. No relationship to anxiety
    B. Direct relationship to motivation
    C. Inverse relationship to age
    D. Random correlation patterns

STUDENT'S ID NO: _____ SIGNATURE: _____

SECTION B

[75 Marks; 25 marks per question]

Answer any three questions in this section

1. In what four ways can multimedia resources support different learning styles in speaking and learning activities? Support your answer with relevant examples.

2. Discuss thoroughly three instructional strategies that support integrated speaking and listening development.

3. Explain three ways teachers can create optimal conditions for speaking and listening development.

4. Outline and discuss three approaches to reduce anxiety and build confidence in speaking and listening activities.

5. Examine four ways teachers can address the diverse needs of learners in speaking and listening instruction. Give examples to support your answers.

6. Explain three cultural and individual differences that affect speaking and listening development.
